Barbara Robertson — Rehearsal Director

Kids are great.
They're honest and fun and, they believe.
This album is for kids—to listen to, to sing, to perform.
We wrote it to be honest and fun, because we believe, too.

Grab your kazoo, your bongos, your tambourine, your drum—any instrument that makes *your* kind of music—and join in with the “coolest” kids’ music in years!

You can be Shadrach, you can be Meshach, you can be Abednego (they’re the good guys). But just beware of that grouchy old King Neb. (His real name is Nebuchadnezzar, but that’s much too fancy for an ill tempered old king!) If you don’t watch out, he just might try to throw you into his fiery furnace!

If you like rock, if you like calypso, or folk, or jazz, or blues, you’ll *love* IT’S COOL IN THE FURNACE. It’s got the kind of songs that are super fun to sing, by yourself or with your friends.

Listen to IT’S COOL IN THE FURNACE. Sing along with the album. And if you find yourself liking it a whole lot, play the record for your music teacher at school or in your church. Why? because IT’S COOL IN THE FURNACE isn’t just a great album for kids, it’s also a real neat kids’ musical! That’s right, your school or church can perform it just like a musical play!

Now don’t forget. If you catch anyone like old King Neb sneaking up behind you, you remember to look him right in the eye and tell him, “You don’t scare me, King Neb. It’s *cool* in the furnace!”
