SIDE ONE

**We Make Weather,
Whether We Like It Or Not**
What Would Happen If It Rained Up?
We End Up With A Storm
Thunder, Lightning
Time For A Break

SIDE TWO

Clouds
Snow Is A Gift To Children
You Have To Be Humble
When You Work With The Sun
At The End Of Every Rainbow
We Weather Makers

We Make Weather, Whether We Like It Or Not

We make weather whether we like it or not
We make weather that is cold and weather that is hot
We make weather when it sizzles;
weather when it drizzles
We make weather whether we like it or not

We make weather whether we will it or won't
We make weather to go out with
and weather when we don't
We make weather that is chilly; weather that is silly
We make weather whether we will it or won't

We make weather whether we wish to or not
We make weather when it's dry and when it rains a lot
We make weather that is snowy; weather that is blowy
We make weather whether we wish to or not

We make weather whether we want to at all
We make weather to ice skate and weather to play ball
We make weather that is lighter
Weather that is brighter
We make weather whether we want to at all

We make weather whether it's nighttime or day
We make weather that is sad weather that is gay
We make weather that is sunny
Weather that is funny
We make weather whether it's nighttime or day

We make weather whether we like it or not
We make sun and rain and snow
And weather cold or hot
We make stormy clouds and typhoons
Breezy raining monsoons
We make weather whether we like it or not

What Would Happen If It Rained Up?

What would happen if it rained up?
What would happen if it rained up?
What would happen to us all?
Umbrellas on our feet might look kind of neat
But it would be real hard not to fall

What would happen if it rained up?
What would happen if it rained up?
What would happen to a car?
Windshield wipers on the tires
And a lot of rusty wires
No one would like to travel very far

What would happen if it rained up?
What would happen if it rained up?
In the house where we reside?
There'd be flooding on the ceiling
And a very eerie feeling
It would be a topsy-turvy time inside
There'd be flooding on the ceiling and
A very eerie feeling
It would be a topsy-turvy time inside

We End Up With A Storm

When rain and wind get together
It means we're in for bad weather
The wind can be lovely and soft in the night
But add in some rain and they're off to a fight
Their combination leads to devastation
And we end up with a storm

When rain and wind get together
We know it's terrible weather
The rain is refreshing and soothing it's true
But add in some wind and you know we are through
Their little mixture is an ugly picture
And we end up with a storm

When rain and wind get together
We know it's stay at home weather
Each on his own is a lovely delight
But put them together and no one is right
Wind that's tremendous, rain that's horrendous
And we end up with a storm

Thunder, Lightning

Thunder, lightning! Thunder, lightning!
A storm's about to begin
Thunder, lightning! Thunder, lightning!
I hope you're all tucked in
Try not to be so afraid
Try to be brave and strong
When you hear my noises above
You feel something's terribly wrong

Thunder, lightning! Thunder, lightning!
Your house seems to shake in the night
Thunder, lightning! Thunder, lightning!
You'd feel better if you put on the light
But you're too scared to get out of bed
And you're too big to call mom or dad
If you weren't all by yourself
You wouldn't feel terribly bad

Thunder, lightning! Thunder, lightning!
When is it going to end?
Thunder, lightning! Thunder, lightning!
Right now you could use a good friend
Is someone trying your door?
Or is it all in your head?
Is something coming up through the floor?
Oh my you're so full of dread

Thunder, lightning! Thunder, lightning!
A storm is about to begin
Thunder, lightning! Thunder, lightning!
I hope you're all tucked in
Close your eyes tightly and count
And hear your little heart throb
And think about T.L. that's me
Enjoying his work and his job

Thunder, lightning! Thunder, lightning!

Time For A Break

The coffee cart is coming down the hall
Time for a break
The coffee man is ringing out his call
Let's take a break
Have some tea; have some milk or some wheat flakes
Have a fruit; have some juice or a chocolate milkshake
The coffee cart is coming down the hall
It's time to have refreshments on our break

Get on line! Wait your turn! Take out money
Make your choice! Make it quick! Don't be funny
Have a seat with a friend and enjoy yourself
As break time passes by

The coffee cart is coming down the aisle
Time for a break
The coffee man is giving us a smile
Let's take a break
Have some toast; have a drink; have a light bite
Try some nuts raisins too are a tasty delight
The coffee cart is coming down the aisle
It's time to have a good treat
Or maybe try a sweet treat
Let's take a break

Clouds

Grey clouds make the sky so dark and dim
Grey clouds make the chance of sunlight slim
They often make it hazy; and often make us lazy.
And sometimes drive us crazy
So dark so dim

White clouds make the sky so full of fun
White clouds are a game for everyone
They often look like faces.
I often change their places;
And sometimes they're just traces
So full of fun

Pink clouds make the sky aglow with light
Pink and purple clouds oh what a sight
I never can ignore them;
I always just adore them;
The sun comes up before them
Aglow with light

Grey or white or pink clouds in the sky?
As they come and as they go you wonder why?
Do they run on gasoline?
Do they come out from a machine?
Where do they hide when they're not seen?
Clouds in the sky
Clouds in the sky

Snow Is A Gift To Children

Snow is a gift to children
Snow is a wondrous toy
Picture a jolly snowman
Giving such fun and joy

Snow is a gift to children
Snow brings a lot of cheer
Look at those smiling faces
Grinning from ear to ear

Snowballs and snowfights
And a lost right hand glove
Top hats and carrots
Black pipes and much love

Snow is a gift to children
Snow is a grand affair
Sleds darting down a hillside
Kids racing on a dare

Snow is a gift to children
A prize shared by everyone
White flakes that bring happiness
Good sport and lots of fun

You Have To Be Humble When You Work With The Sun

The sun is very powerful; the sun has great strength
The sun can reach you everywhere,
no matter what the length
The sun can give a lovely tan or a bad sunburn
So pay attention, listen hard and then you too will learn

Chorus

You have to be humble when you work with the sun
You must show respect and dignity
You have to be careful when you work with the sun
You must be sure you have humility

The sun can bring a lot of joy
The sun can bring much fun
Like playing ball and it's the day
You hit the home run
Or maybe it's the day when the sun is very bright
You miss the ball
You lose the game
Because of the bright sunlight

(Repeat chorus)

The sun can give a lot of warmth
And you won't need a sweater
The sun is very good
At making sickly people better
The sun is very nice to have when you're in the park
But watch it when the sun goes in
And you're left in the dark

(Repeat chorus)

At The End Of Every Rainbow

At the end of every rainbow is a pot of gold
At the end of every rainbow that's what I've been told
That's where wishes grow and dreams come true
And happiness waits there for you
At the end of every rainbow in the sky

At the end of every rainbow is a lot of fun
At the end of every rainbow opposite the sun
That's where troubles end and hope is new
And lady luck will welcome you
At the end of every rainbow in the sky, the sky

Lovely colors painting up the sky
Wondrous sunshine smiling through just for you

At the end of every rainbow is a grand surprise
At the end of every rainbow you will realize
That the rains may fall and make you blue
But sunshine will come through for you
At the end of every rainbow in the sky, the sky

We Weather Makers

We weather makers thank you
For letting us explain
Our corporation's problems
With sun and wind and rain
We weather makers thank you
For letting us express
How certain combinations
Get us into a big mess

We hope you had a good time and
Paid attention too
We really tried our utmost
To tell the truth to you

We weather makers thank you
For letting us reveal
Our innermost thoughts
And how we really feel
We thank you for your patience
And hope you'll never tell
That weather makers make mistakes
Though we know weather well
That weather makers make mistakes
Weather makers make mistakes
Weather makers make mistakes
Though we know weather well
